

# Coastal Carolina Regional Airport (EWN) Master Plan Update Notice of Public Open House

What future projects are planned for Coastal Carolina Regional Airport?

Coastal Carolina Regional Airport (EWN) is completing a master planning process that will result in submitting a “Master Plan Update” and “Airport Layout Plan Update” to the Federal Aviation Administration (FAA), which outlines a 20-year development plan and program that will improve the airport’s facilities in a manner that supports and compliments the strategic vision and development in Craven County while maintaining the safety and reliability of operations.

As part of this effort, the Airport Authority is hosting a Public Open House, inviting the community to learn about the Master Plan Update and view the Draft Preferred Development Concept.

Additional exhibits will also include: inventory of facilities and aviation forecast information.

No formal presentation is planned. Interested residents are encouraged to attend and may come and go as they please.

## WHAT:

Coastal Carolina Regional Airport (EWN) Master Plan

## WHEN:

November 7, 2019
